In accordance with Regulation (EC) No 1272/2008 of the European Parliament and of the Council of 16 December 2008 on classification, labelling and packaging of substances and mixtures amending and repealing Directives 67/548/EEC and 1999/45/EC, and amending Regulation (EC) No 1907/2006 taking into account Adaptation to Technical Progress (ATP) to the CLP Regulation classified as a **dangerous good – packing group III, class 8**.

In connection with the new classification, the following documents has been changed:

1. Material Safety Data Sheet
2. Labels

The dangerous good to be shipped need special packaging and “shipper’s declaration for dangerous goods” crucial certificate for the transportation arrangement which are provided by PZ Cormay. New classification might have impact on the transportation costs.

In accordance with new classification of reagent as a dangerous good, the labels have changed. Please check if your Competent Authority should be notify.

The new classification is **applicable from May** (for indexes 3-104, 3-105, 3-106, 3-107) **and November 2022** (for indexes 3-117, 3-118, 3-119, 8-860).

Our recommendation is to accumulate your orders on this product. Dangerous goods cannot be in the same order or shipped together with other reagents, for its special transportation method costs much more.

In case of doubts please contact your Area Sales Manager and Customer Service Representative (transportation) or Quality Assurance (labeling).
